

OXYGEN CYLINDERS

DATE: March 2020

Version: 45

Ref. No.: Cld 001

1.5m3/10L Breathing Oxygen Cylinder

Min. Order:	150 Pieces
Port:	Thailand
Production Capacity:	20,000 PCS/Month
Payment Terms:	L/C, T/T, Western Union, Paypal
Customized:	Customized
Certification:	CE, ISO13485
Item Name:	1.5m3/10L Breathing Oxygen Cyl
Mat.:	37mn
Water Capacity:	10 Liter
Color:	White

1 PRODUCT AND COMPANY IDENTIFICATION

*Referenced main specs of Medical Breathing Oxygen Cylinders 10L:

- OD=140mm;
- W. P. /T. P.: 15/25Mpa;
- (Normal)Wall Thickness: 4.5 mm;
- (Normal)Height: 830mm;
- (Normal)N. W.: 13.6kg;
- White as your preferred;
- W/ O2 valves CGA540, QF-2, & Handles(to-be-confirmed);
- Connecting Thread: PZ 27.8.
- Manufacturing Standard: ISO-9809-3/GB5099.

*NOTES: Various types of oxygen valves(like CGA870 pin index oxygen valves, oxygen valves CGA540, gas regulators, gas cylinder carts, & related gas items) can be also offered upon further kind request(s).

Secure Supplies seamless steel gas cylinders are ideal for holding permanent gases and high pressure liquefied gases such as oxygen, hydrogen, nitrogen, argon and carbon dioxide. We can supply all kinds of seamless steel gas cylinders, and the nominal service pressure ranges from 8MPa to 50MPa, while the nominal water capacity ranges from 0.4L to 120L. Also, we can supply cylinders of different pressure, capacity according to your requirements. The majority of the gas cylinder is made of high-quality alloy steel material. They are widely applied in the chemical, metallurgical, mechanical, medical, scientific research and construction industries.
