

# OXYGEN CYLINDERS

DATE: March 2020

Version: 48

Ref. No.: Cld 043

## Cga540-Type Aluminum Oxygen Cylinders 4.6L (ME-size)

Min. Order:	150 Pieces
Port:	Thailand
Production Capacity:	30,000 PCS/Month
Payment Terms:	L/C, T/T, Western Union, Paypal
Customized:	Customized
Certification:	CE, ISO13485
Item Name:	4.6 L Breathing Oxygen Cylinder
Mat.:	Aluminum
Water Capacity:	4.6 Liter
Color:	Silvery Green

### 1 PRODUCT AND COMPANY IDENTIFICATION

#### \*Referenced main specs of ME-size/4.6 L Medical Aluminum Oxygen Cylinders (W/ Medical Oxygen Valves CGA540)

- Cylinder OD: 111/4.38";
- W. P. /T. P.: 139bar; (Normal) Wall Thickness: 7.1mm;
- (Normal)H: 645mm/25.4";
- (Std)N. W.: 3.6KG/7.8LBS; Green silvery.
- W/ black plastic handle;
- Connecting Thread: 3/4-14UNF;
- Manufacturing Standard: DOT-3AL, EN1975 and etc.

**\*NOTES:** Various types of gas valves, oxygen regulators, & related gas accessories can be offered upon further kind request. And our brother factory of aluminum gas cylinders can manufacture various types of gas cylinders with:

- 1). Water Capacity: 0.5L~50Liter;
- 2). Outer Diameter(OD): 60mm ~ 250mm;
- 3). Working pressure: 150bar/200bar;
- 4). Manufacturing std: DOT-3AA/ISO7866.

Secure Supplies seamless steel gas cylinders are ideal for holding permanent gases and high pressure liquefied gases such as oxygen, hydrogen, nitrogen, argon and carbon dioxide. We can supply all kinds of seamless steel gas cylinders, and the nominal service pressure ranges from 8MPa to 50MPa, while the nominal water capacity ranges from 0.4L to 120L. Also, we can supply cylinders of different pressure, capacity according to your requirements. The majority of the gas cylinder is made of high-quality alloy steel material. They are widely applied in the chemical, metallurgical, mechanical, medical, scientific research and construction industries.
